Before getting started, translation

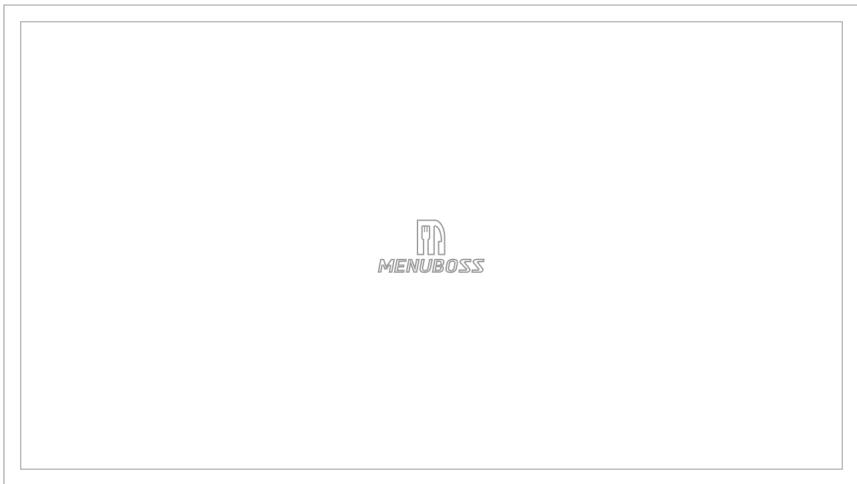

MenuBoss app guide is a booklet that helps users quickly and easily utilize and understand the service
To use this service, you will need two items. Please refer to the following information to prepare

1. Controller : Mobile phone or tablet

2. Digital Signage : TV Screen

1 Controller : Phone, Tablet

2 Digital Signage : TV Screen

1. The mobile app service is available on Android and iPhone smartphones as well as tablets, providing functionality
To use the app, please download [MenuBoss: Digital Signage Pro] from the Google Play Store for Android or from the App Store for Apple devices
2. To utilize the TV app service, connecting to a TV screen is mandatory
To access the app, kindly download [MenuBossTV - Digital Signage All in one Service] from the Amazon App Store for your TV

App download

Transform your TV into a state-of-the-art digital signage display with MenuBoss. From direct hardware installation to our dedicated TV app service, we provide a one-stop solution catering to all your digital signage needs

TV Screen : Amzon App Store <https://www.amazon.com/gp/product/B0CKYWBP62>

Controller : Google Play Store <https://play.google.com/store/apps/details?id=com.orot.menuboss>

Controller : App Store <https://apps.apple.com/us/app/menuboss-digital-signage-pro/id6467700525>

Amazon App Store
(TV Screen)

Google Play Store(App)

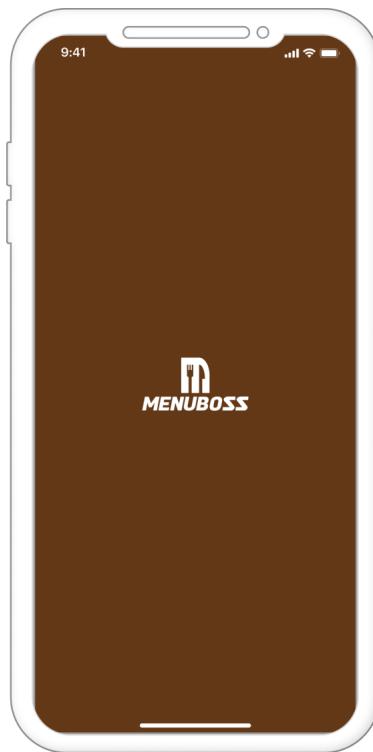

App Store(App)

#1 MenuBoss: Digital Signage App Launch

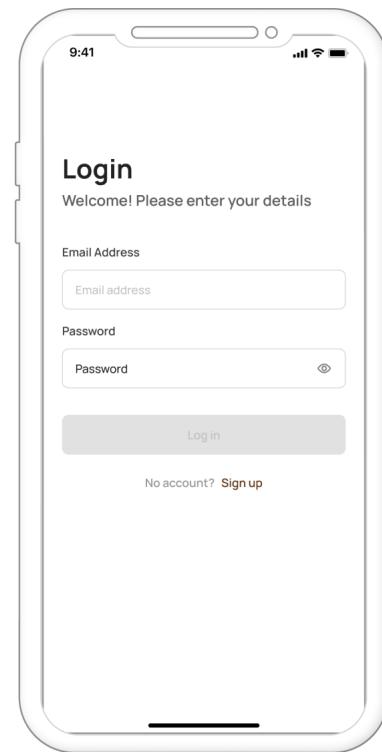

To use the controller, please download [MenuBoss: Digital Signage Pro] from Google Play Store or App Store

If you don't have an ID initially, please proceed with the sign-up first, and then log in later using that ID and password

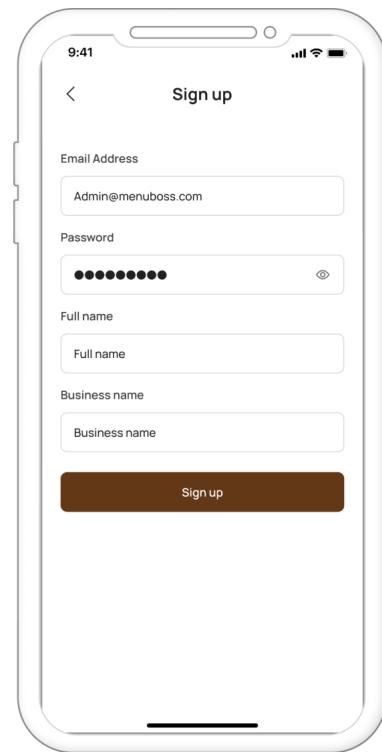

1-1 The Membership Registration Process Sequence

1 Main Splash Screen

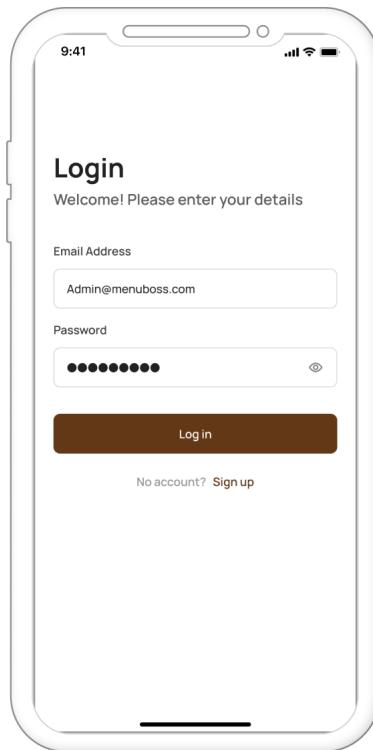

2 Sign up

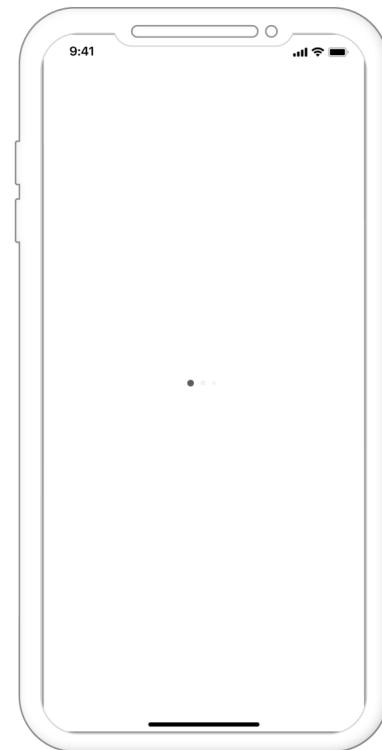

3 Email, Password, Name Information Input

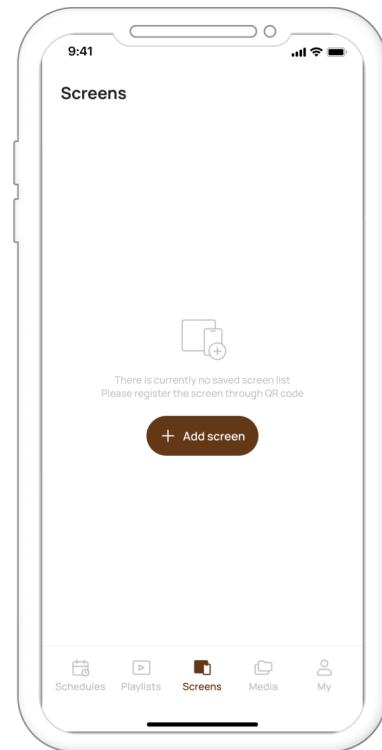

1-2 Login Process Sequence

1 Entering Login Information

2 Loading

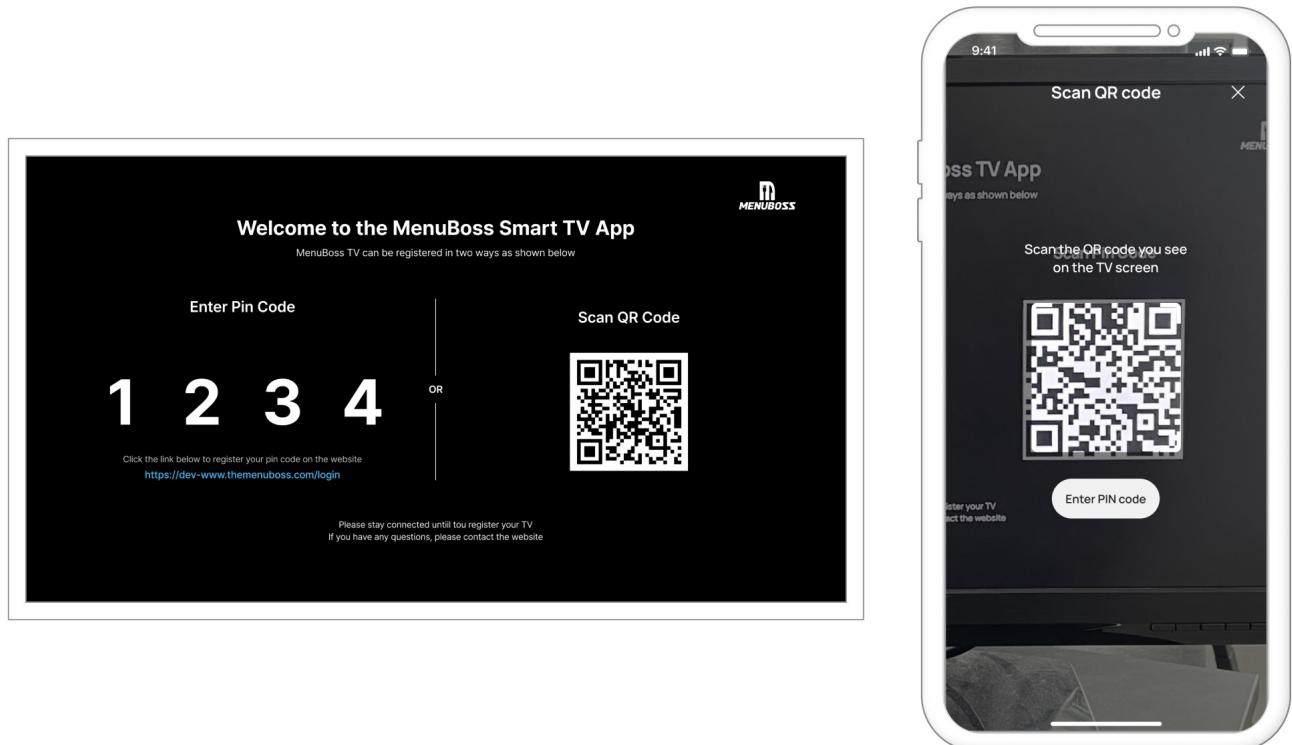

3 Main Screen

#2 Screen Connection - QR code / PIN code

To use the TV screen, please download [MenuBossTV - Digital Signage All in one Service] from the Amazon App Store and run the app on your TV screen

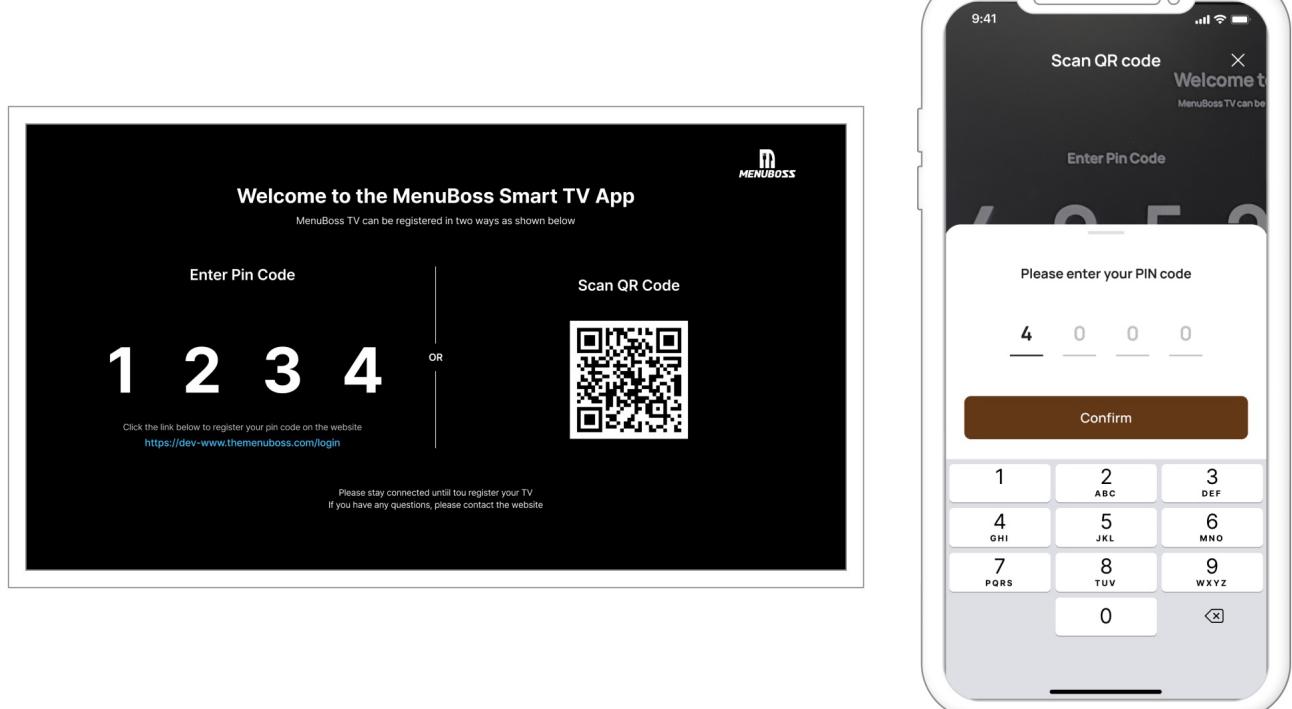

On the main screen, click on the 'Add Screen' button. There are two ways to add a screen
Please connect your TV screen by either scanning the QR code displayed on the TV or entering the PIN code

2-1 QR Code Recognition

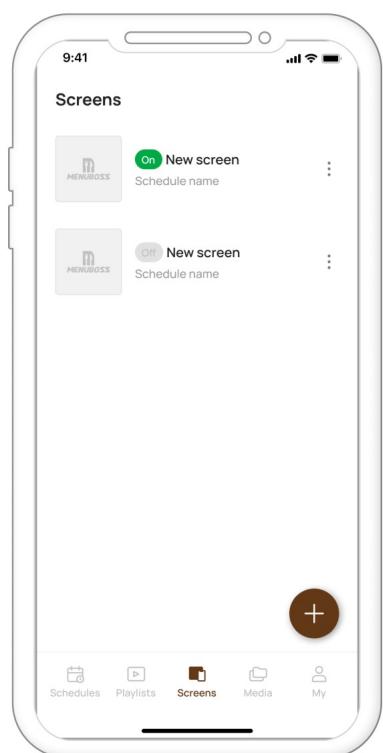

1 Recognizing the QR code on the screen

2-2 PIN code input

2 Entering a PIN code on the screen

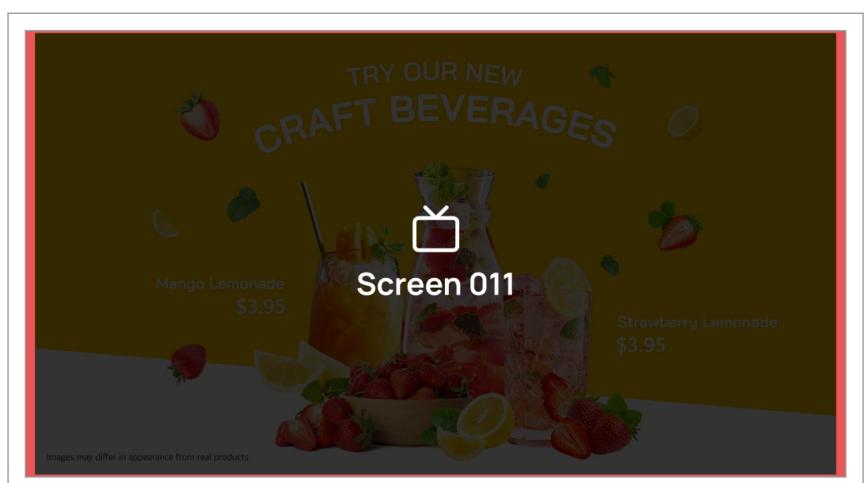

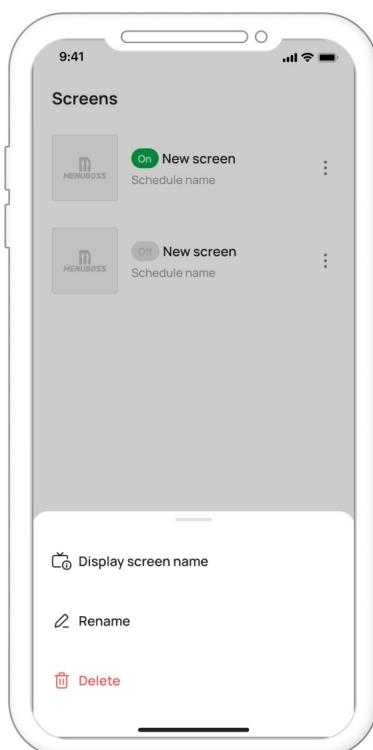

2-3 Display Screen Name

- 1 Please wait until the connection between your phone and TV screen is established
When the list of screens appears on your phone screen, the connection is successful

- 2 Screen Connection Complete

2-3 Display Screen Name

- 1 Select [Display Screen Name]

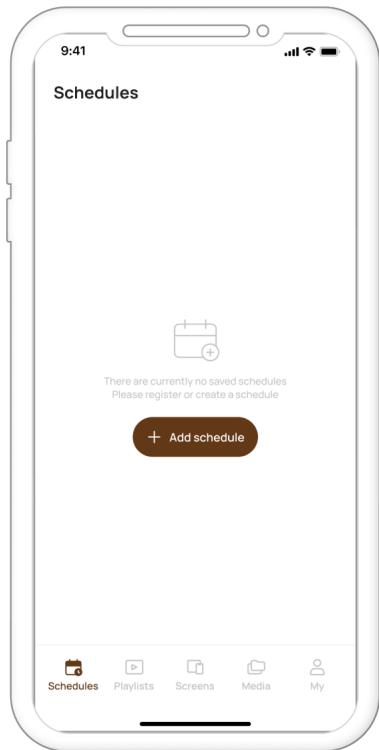

- 2 If it's challenging to differentiate screens using the 'Display Screen Name' feature
You can label the TV screen to differentiate it

#3 Schedules

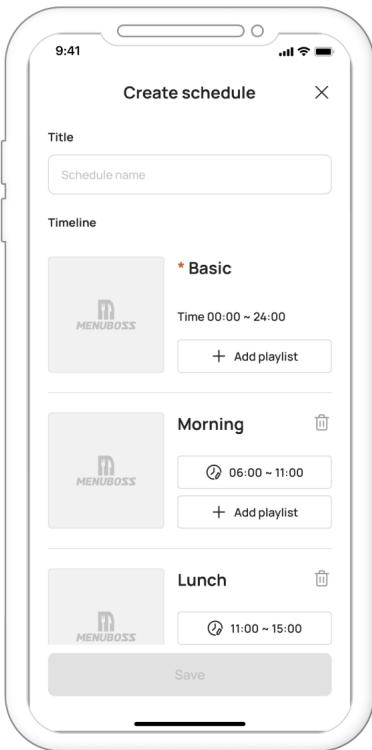

Through schedule creation, you can flexibly use digital signage

- You can set up your own schedule by adding playlists for specific times such as Basic / Morning / Lunch / Dinner
- When creating and setting up a schedule, first create a 'New playlist', then 1. select the playlist, and 2. set the time for that schedule
- **Basic 24-hour playlist can overlap, but other playlists cannot have time overlaps**

3-1 Create schedule

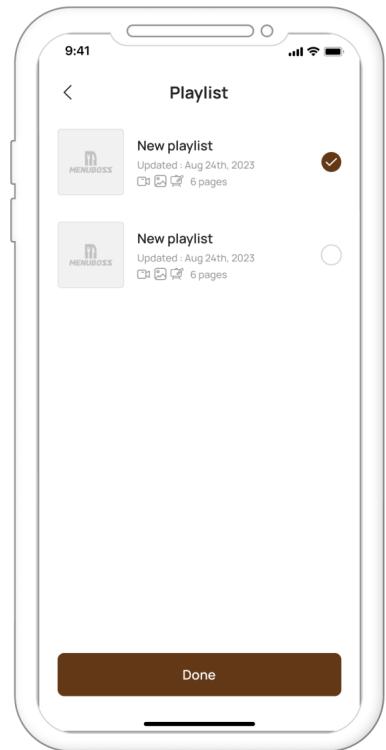

1 Select the [Add schedule]

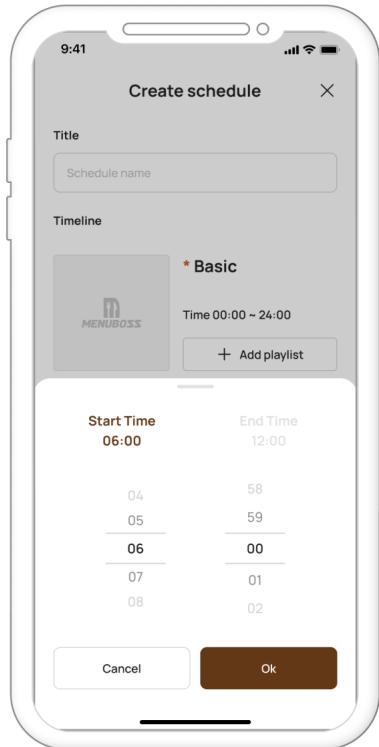

2 Create a new schedule

(Except for 'Basic', schedule settings can be created through the 'New playlist' button at the bottom)

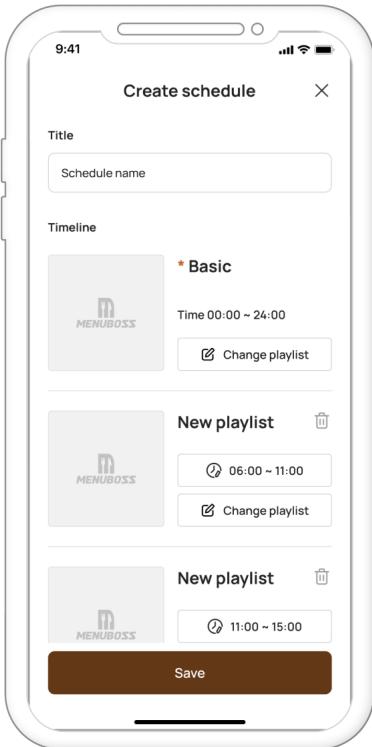

3 Select a playlist

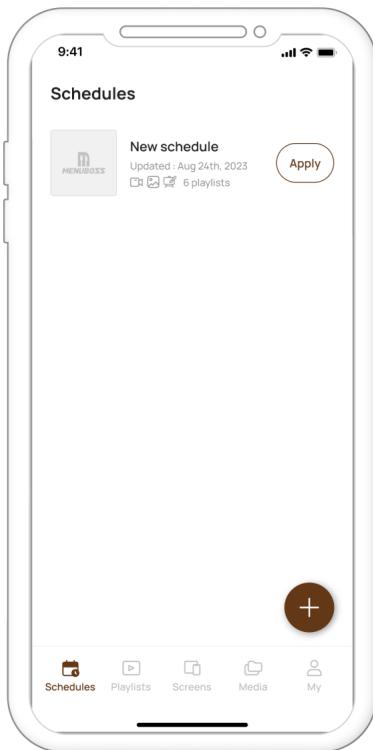

4 Set the time

(Time cannot overlap, except for the Basic 24-hour schedule.)

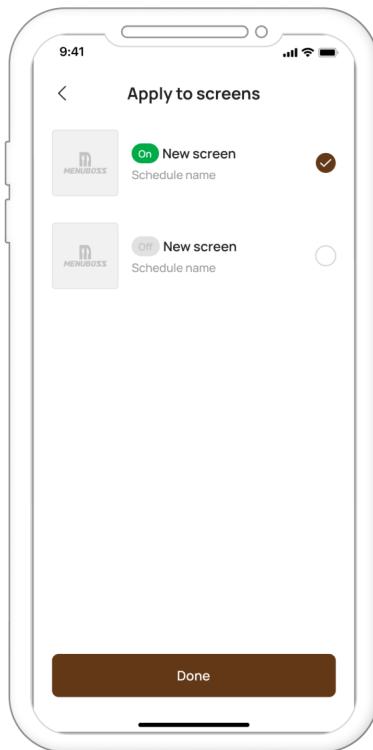

5 Schedule creation completed

3-2 Connect to screen

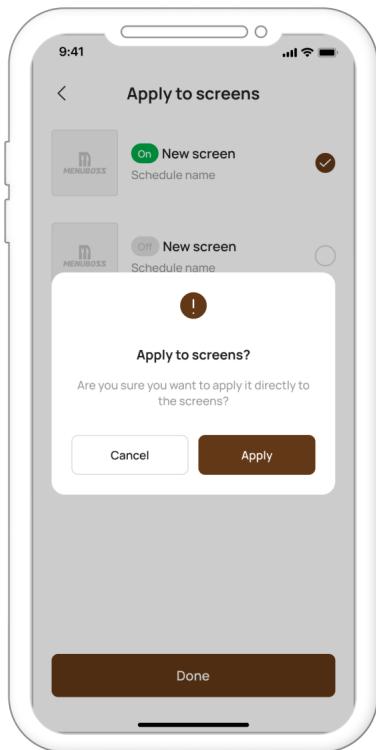

1 Select [Apply] in the schedule main menu

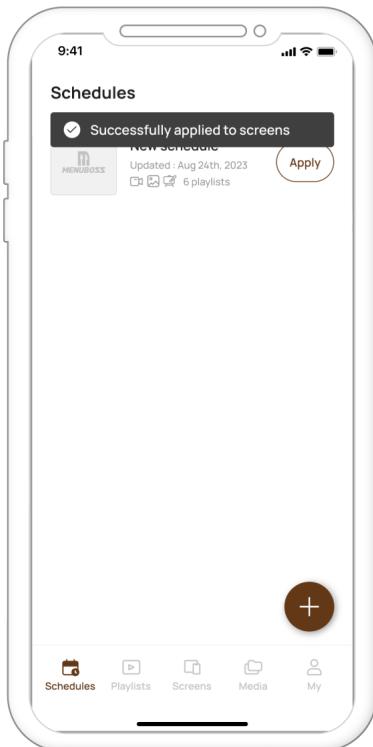

2 Select 'ON' screen

(It is difficult to connect to a TV screen that is turned off)

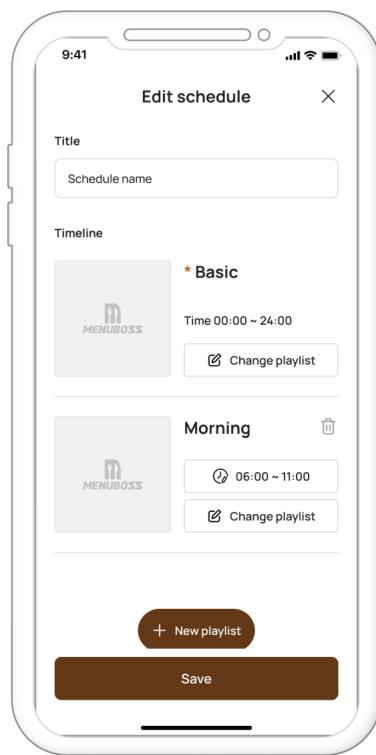

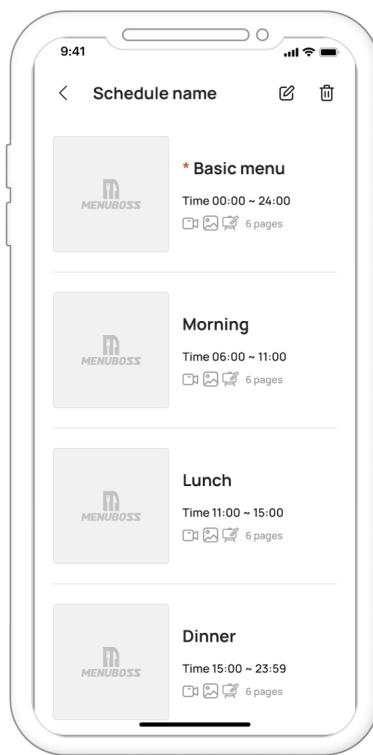

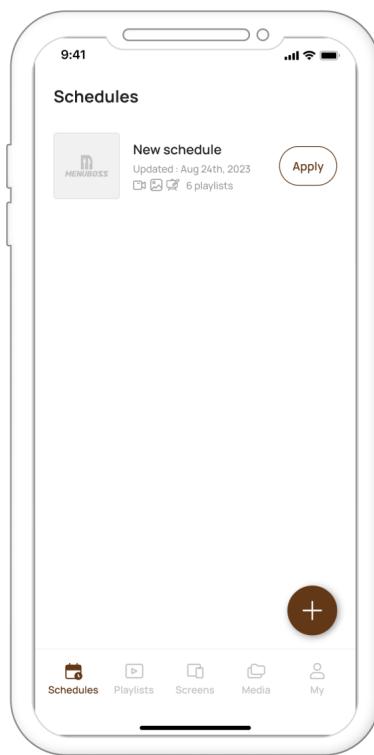

3 After confirming the popup select the [Apply]

4 Screen connection completed

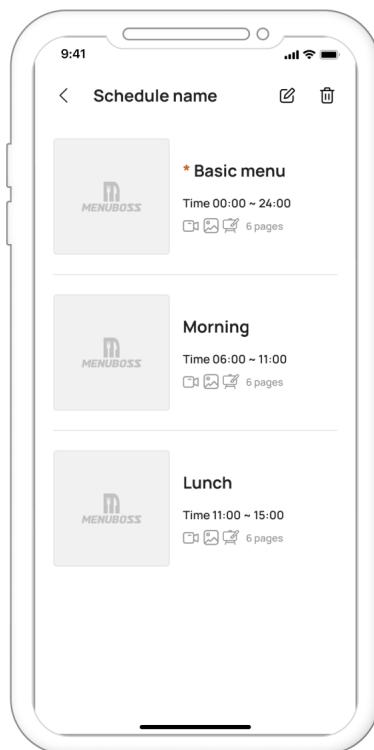

3-3 Edit schedule

1 Select the schedule you want to edit from the main menu

2 Select the edit icon in the schedule detail screen

3 Schedule can be edited or deleted

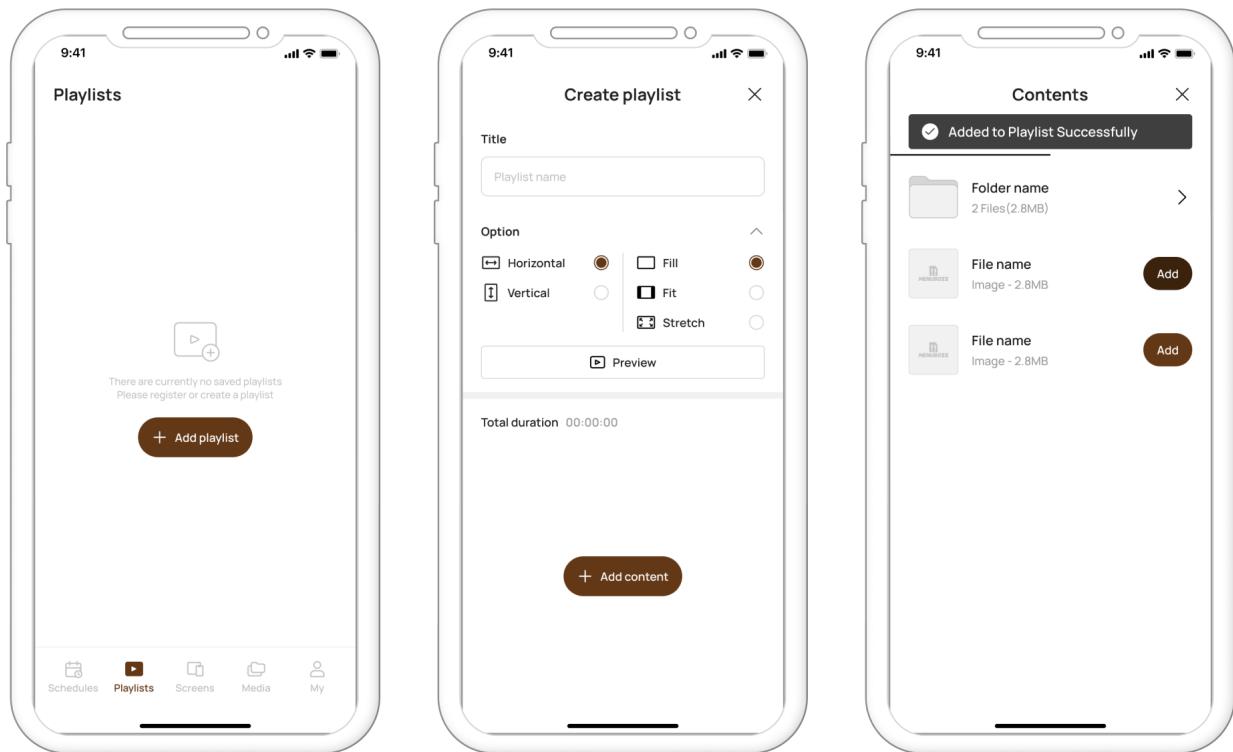

4 Complete by saving

#4 Playlists

You can create your own digital signage by arranging the desired media and setting the time in the playlist

- Through the option, you can set the digital signage's horizontal/vertical orientation and the Fill / Fit / Stretch configuration
- Before finalizing the playlist, you can preview it through 'Preview' (option settings are also available in the preview)
- **"You can arrange the content and set the time. However, time setting is not available for videos**

4-1 Create playlist

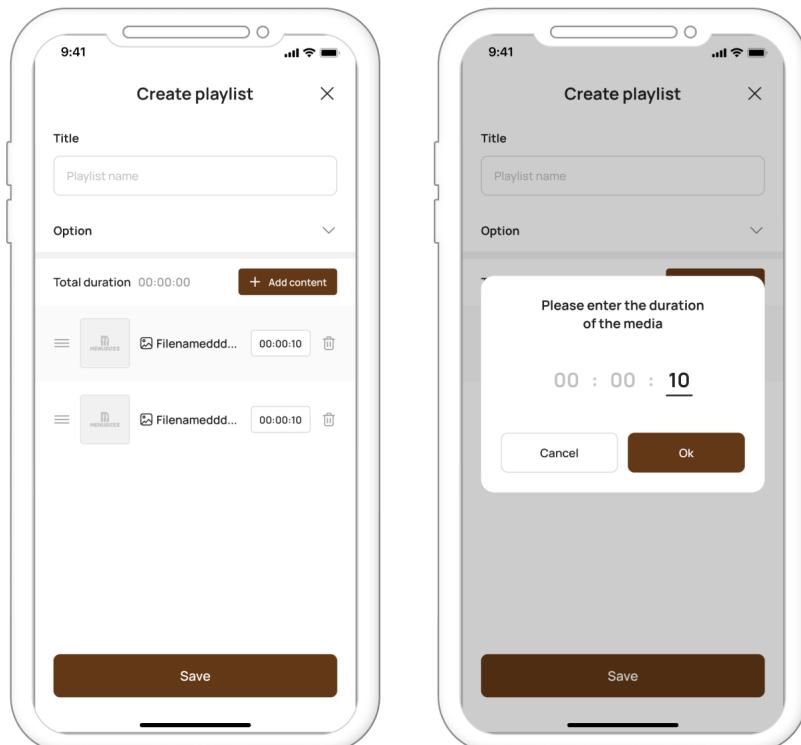

1 Select the [Add playlist]

2 Create a new playlist

3 Add content

(Add content at the bottom (through previously uploaded media You can add and arrange media in the playlist))

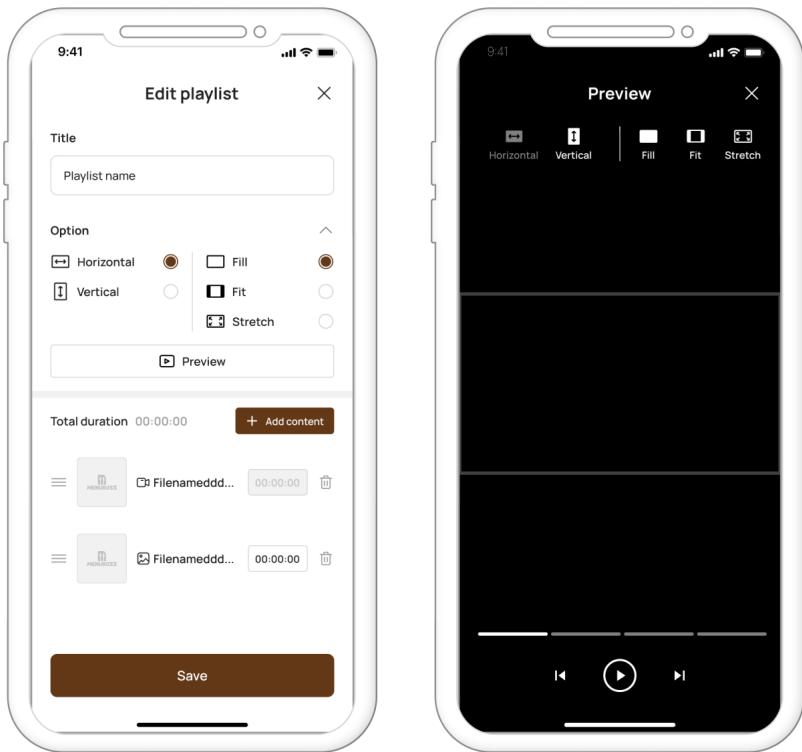

4 Organize the order of media

5 Set the time

(Time setting is possible for images, but not for videos)

4-2 Preview

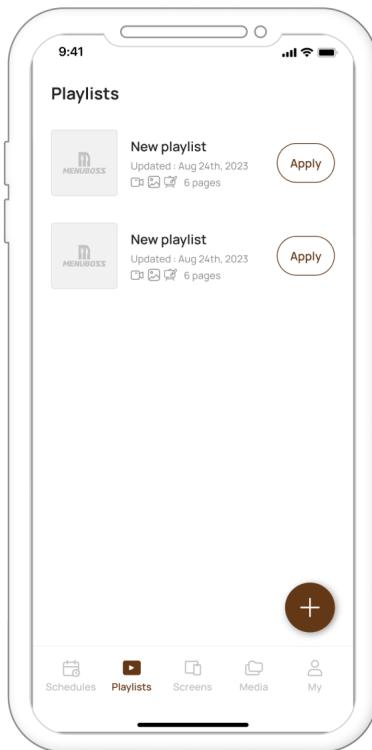

1 Select the [Preview] button in the options

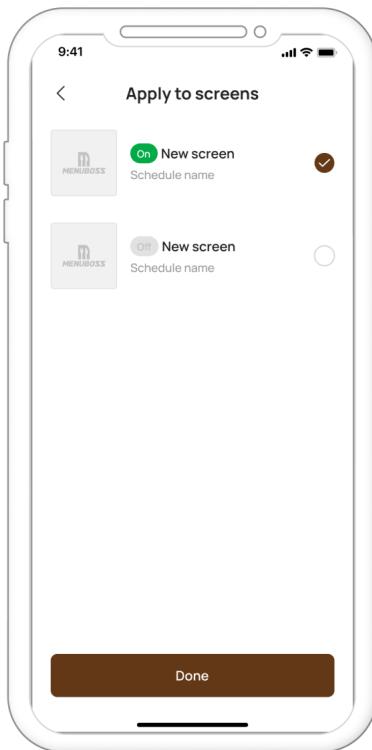

2 Preview available

(During the Preview, you can change to the desired appearance through option selection)

4-3 Connect to screen

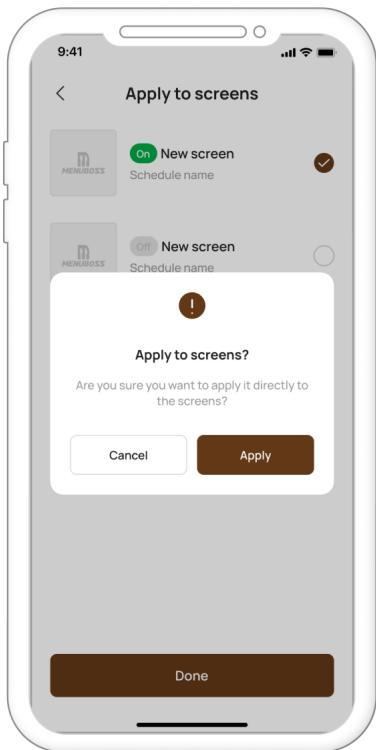

1 Select [Apply] in the playlist main menu

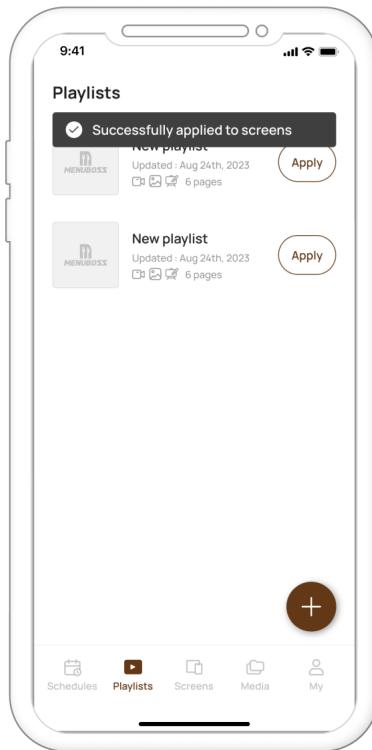

2 Select 'ON' screen

(It is difficult to connect to a TV screen that is turned off)

3 After confirming the popup select the [Apply]

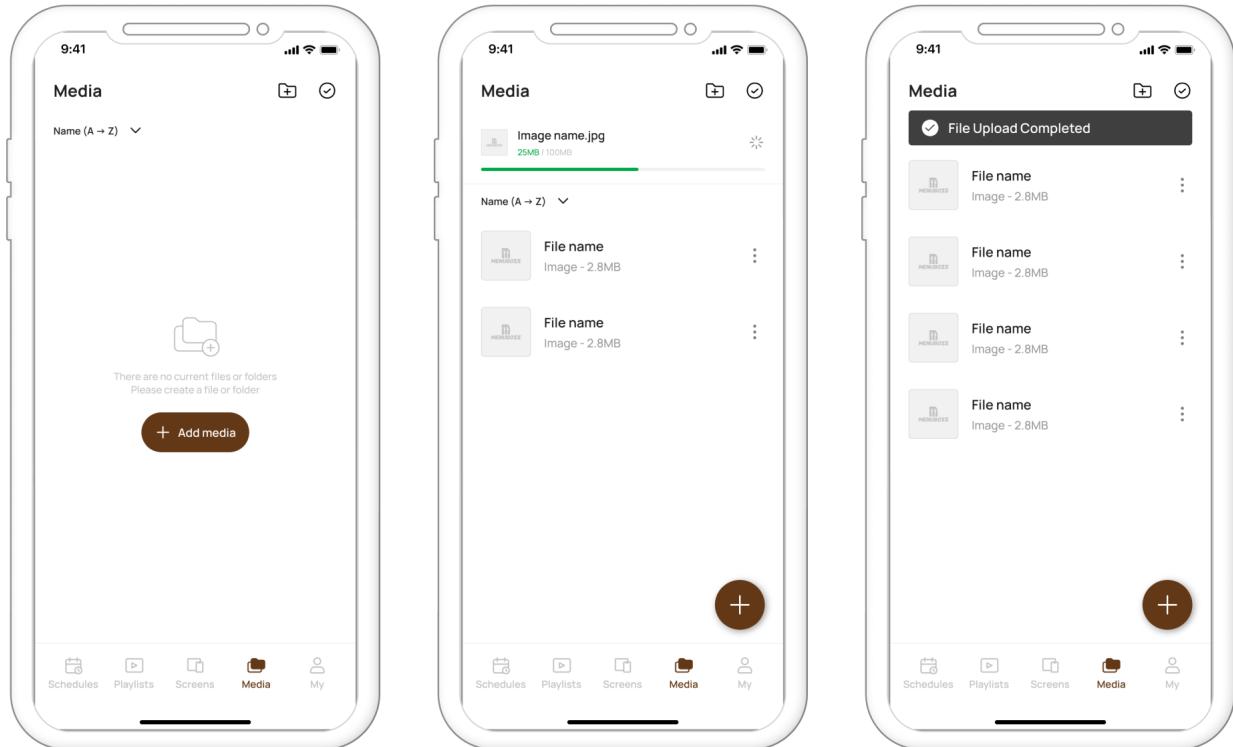

4 Screen connection completed

#5 Media

In the media menu, you can upload your images and videos, or organize the files through folders

- You can create folders by clicking on the icons at the top. Additionally, you can delete or move files using the checkmark option
- Currently, files can be uploaded one at a time
- **Creating a folder within a folder is not possible**

5-1 Upload media files

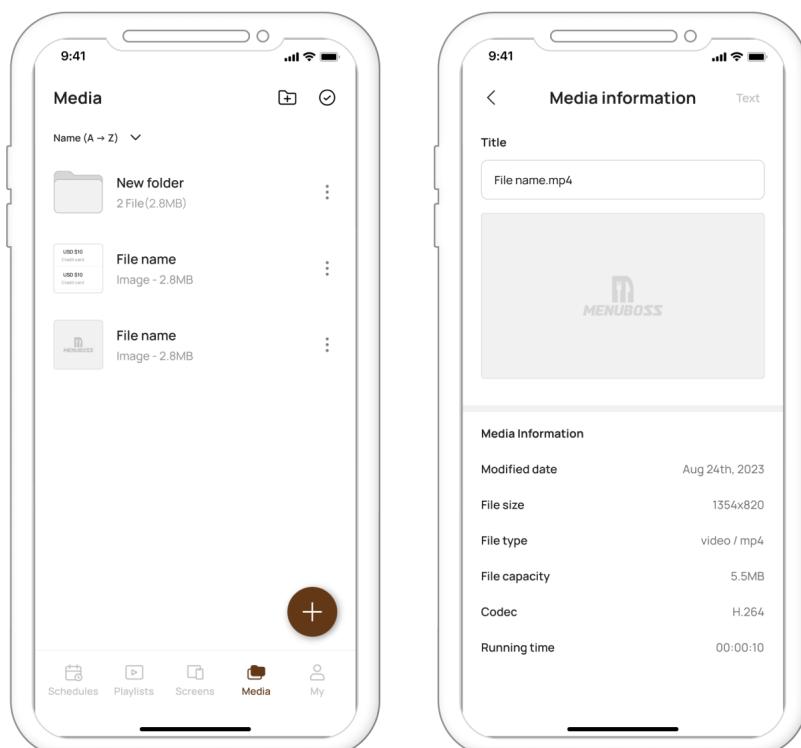

1 Select the [Add media] button

(if an error occurs during file upload, you can retry the up)

2 Upload media files

3 File upload completed

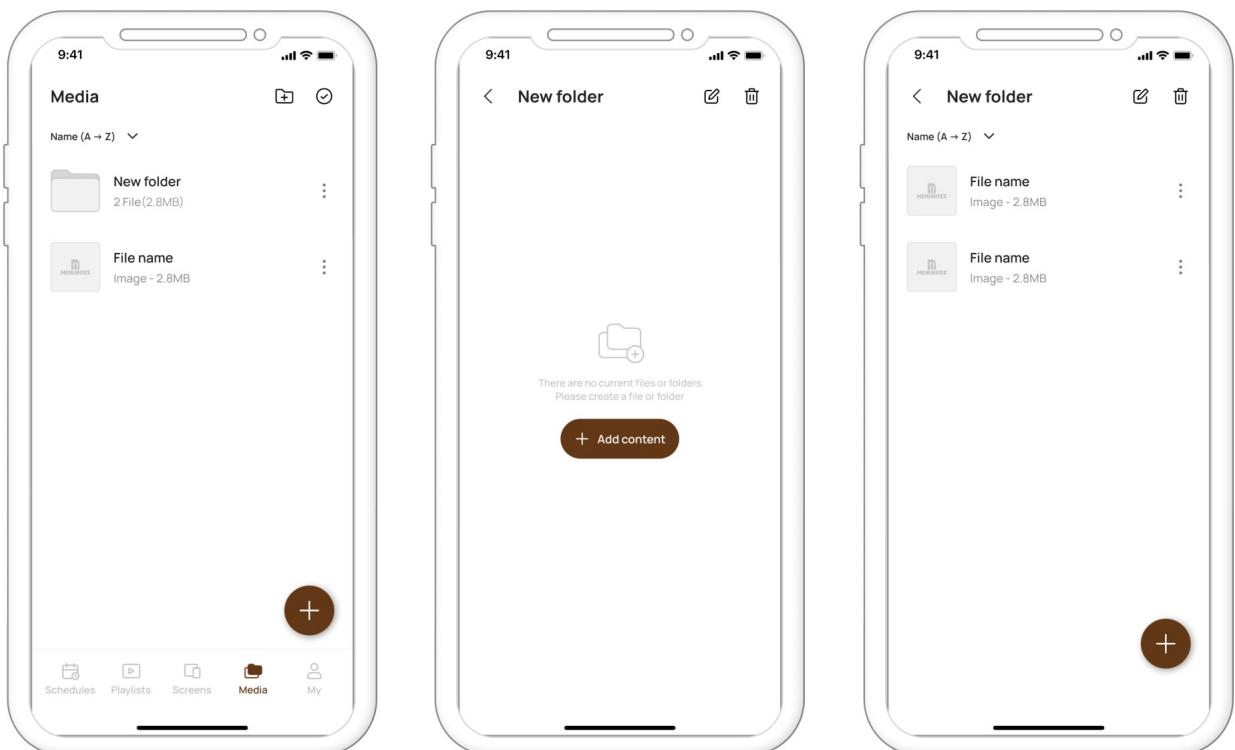

5-2 View media file details

1 Select the relevant media from the main screen

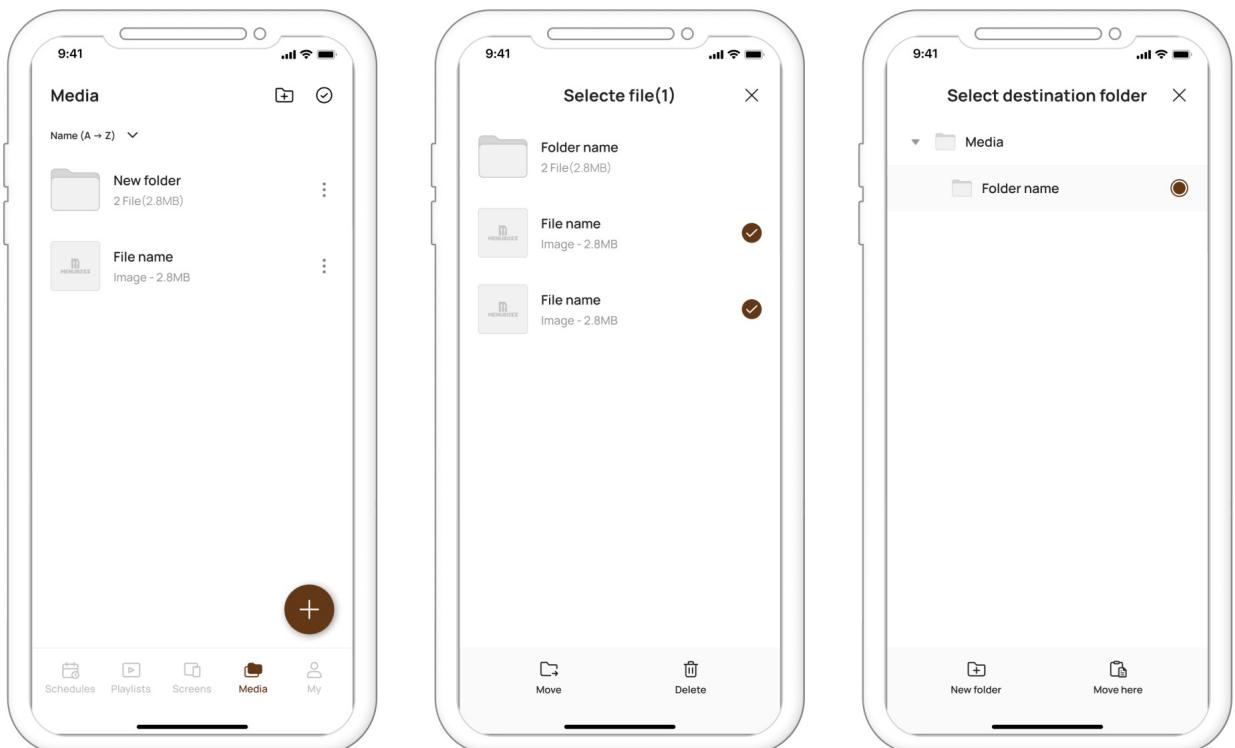

2 You can edit or delete the name through the detailed view
(You can edit or delete the name through the detailed view)

5-3 Create a folder and add files

- 1 Select the + icon at the top of the main screen
- 2 New folder creation completed
(The name of the created folder is automatically generated as [New folder] it is not possible to create subfolders)
- 3 Organizing files within the folder is possible

5-4 How to move media files

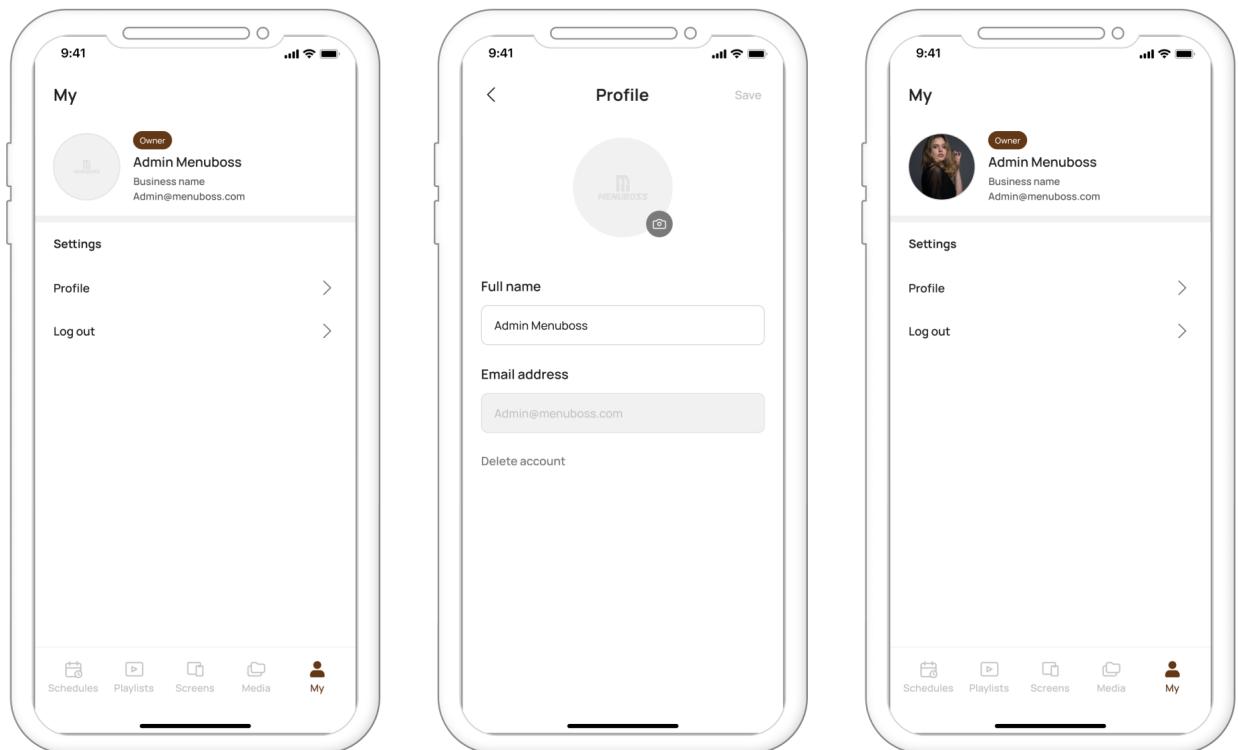

- 1 Select the check icon at the top of the main screen
- 2 After selecting the media files to be moved, choose [Move]
(Except for folders, multiple selection of files is possible)
- 3 When you select the destination folder and choose [Move here] the media files will be successfully moved

#6 My

In My Profile, you can find basic information such as my job title, my name, and the restaurant name

- You can change your name and profile picture through profile editing
- At the bottom of the profile editing, you can delete your account (deleted accounts cannot be recovered)
- You can log out from the respective settings

6-1 Profile settings

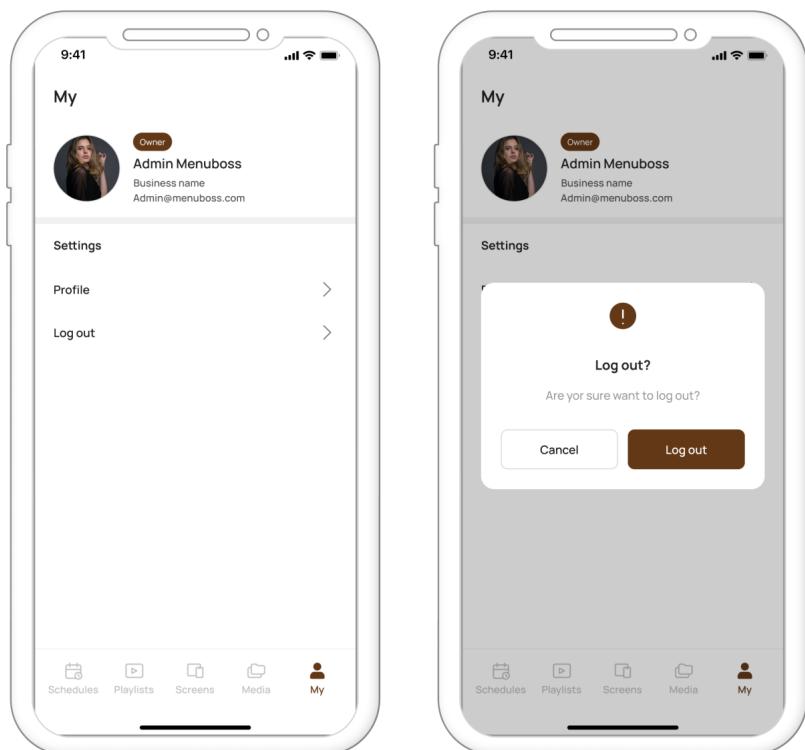

1 Select [Profile] from the main screen

2 You can change your profile picture and change your name
(Email address cannot be changed)

3 After saving, please confirm

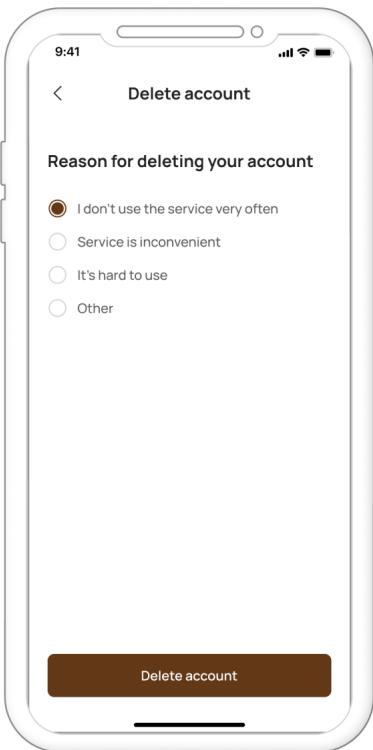

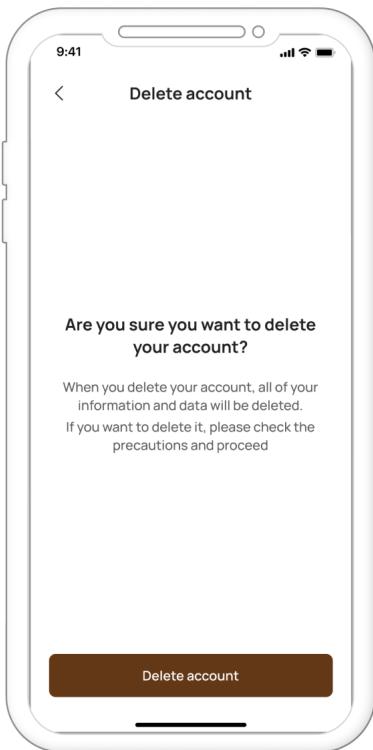

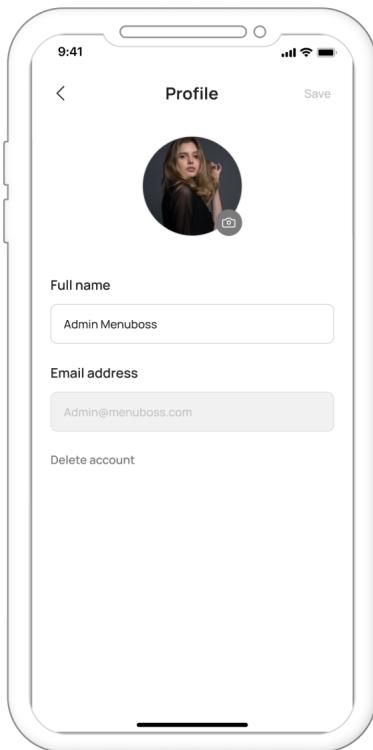

6-2 Log out

1 메인 화면에서 Log out 선택

2 로그아웃 팝업에서 로그아웃 하면완료

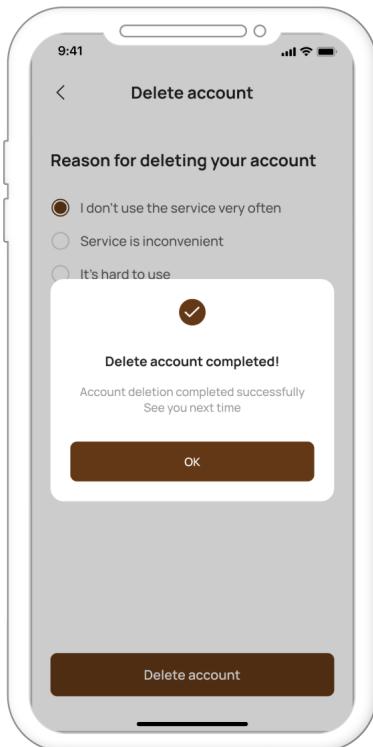

6-3 Account withdrawal

1 Select [Delete account] at the bottom of the profile settings

2 Please check the precautions regarding account withdrawal

3 Select a reason for withdrawal
(If you choose 'Other,' you must provide a reason for selecting that option)

4 When the popup appears, your account withdrawal is complete

(Account recovery is not possible after withdrawal)
